

Stylish energy-efficient windows and doors

for **ideal** homes

www.aluplast.co.uk

Casement and Tilt and Turn Windows

Our casement windows can be equipped with the very latest high security multi locking systems to meet the secure by design criteria. A choice of stylish handles in various colours and styles complements the stylish appearance of the frames. As well as our standard white lustre finish our PVC-U frames are also offered in a range of stylish woodgrain effect foiled finishes.

Choose from rich dark rosewood or natural golden oak. You can also have bay windows or bow windows made from our casement systems to provide stylish features for your home. Our windows provide night ventilation and also trickle ventilation where necessary to meet the requirements of the Building Regulations.

The uniquely British outward opening casement window type lends itself admirably to both modern and traditional window designs and offers the potential for a wide range of styles to grace almost any building. Casement windows are the ideal choice for most timber window replacements.

The opening casements can be side hung or top hung and combined with fixed elements to provide the style that is perfect for your home. Stainless steel friction hinges provide safe operation with maximum security and can incorporate fire escape and easy clean.

Fully Sculptured Profile
Delivering Unique Style and Elegance

Entrance doors

Your home really can be your castle when you choose from our wide range of entrance doors. Heavy duty adjustable hinges, reinforced framing sections and multi-point locking systems combine to provide outstanding security while maintaining reliable operation and a range of suited door furniture ensures that elegance and effectiveness go hand in hand. Various threshold details are offered including an easy wheelchair access option. Our doors are equally good at keeping out the unwanted harsh weather conditions as they are at keeping out any unwanted intruders.

Choose from a huge range of glazed, panelled or composite door options in white, woodgrain foil finishes or a range of stylish colours. We offer a comprehensive range of beautiful patterned glasses, glazing bar designs and coloured, leaded and bevelled glass options. Our entrance doors can incorporate single or double side screens or 'flag' half lights, and can be included in stylish and practical low maintenance porches.

Conservatories

Your room for all seasons

Your dreams become reality with our outstanding range of conservatories. You can choose from a huge range of designs and styles or we will work with you to achieve your own special design.

Let your imagination run wild; our conservatory could become a study, a playroom, a dining room or simply a place to relax, unwind and make the most of your leisure time.

Modern materials and high performance glazing ensure that your conservatory will be comfortable all year round. Truly a room for all seasons!

Sustainability

Economic.. Social. Environmental.

Sustainability: the ability to continue to do what we are doing. We are all now very aware of the need to respect our environment and behave in responsible ways to safeguard our world and its resources for future generations.

The 'three pillars' of sustainability require us to act responsibly with regard to social, economic and environmental factors which together contribute toward a sustainable future.

While PVC has been much maligned by certain pressure groups and media, this versatile material has strong credentials that make it a wise choice, now and for a sustainable future.

5 Chamber Profile System Delivering **Environment Friendly** Energy Efficient Windows and Doors
